

Just a word about Uhle Tobacco Blends... We maintain a very small tobacco factory. Our tobaccos are hand blended and hand packed. From year to year, we buy the finest raw tobaccos on the market. My employees work with pride and turn out the very best product.

As long as we remain in business, we assure our customers that when they purchase UHLE'S PIPE TOBACCOS, they can always rely on quality. This we pledge to you, our customers.

A note about Mildness... Good leaf tobacco, cured and cut correctly will always be more palatable and therefore will be mild. Because we buy the very best leaf tobaccos, we will find out which blend agrees with your taste. When you find that blend, it will be the mildest blend we have. Our leaf tobaccos are the finest, our blending is experienced and uniform...we could use the word mild for each blend and "mild" would become a monotonous repetition. Every smoker has his own classification of "mildness"...however, true, excellent, high quality products have always the best chances of "mildness."

AROMATIC BLENDS

All tobaccos are aromatic. When we call a blend "Aromatic" we mean that the blend is flavored with various sugars, tobacco extracts and essences. These "casings" are sometimes misunderstood. They are added to tobaccos for mildness, richness, taste and all around better pipe smoking. Casings never cheapen tobacco - they are expensive and are put into tobaccos with loving care.

BLEND #255

Pkt. Size7 oz.14 oz.

Cube cut for long and cool smoking...excellent aroma...just a little on the sweet side...if the blend feels on the dry side, this is the way we want it to be. Pack on the tight side and tamp during your smoke. This blend was created in 1937, has never been changed and always is right up there as a best seller. Excellent to blend half and half with Blend #71 or Par Shooter.

HOUSE OF UHLE BLEND

Pkt. Size7 oz.14 oz.

A great mellow blend, Black Cavendish with hints of maple and vanilla...not too sweet, but just sweet enough.

BLEND #300

Pkt. Size7 oz.14 oz.

Cube cut with Honey-Hive flavoring...just a youngster as our blends go...since 1948...but what a blend! You can smoke it day in and day out and never tire of the flavor. What can you say about a blend like this in a short space...it's real elegant smoking. Too good to blend with anything else.

HUNT CLUB BLEND

Pkt. Size7 oz.14 oz.

Chocolate flavored crimp cut White Burley...easy, real mild smoking. Yes, it may smoke just a little bit faster but tamp it during your smoke and you will slow it down to the pace you like. Just because it's so easy to smoke...don't smoke so much...you won't run us out of this blend. Especially a good warm weather smoker.
